REQUEST FOR INACTIVE STATUS - ARCHITECT

All registrants are required to be active and in good standing before a change to inactive status is approved. If your registration remains on inactive status for more than 5 years, you will be required to show proof that you have an active registration in another state, or you will be required to take the Architect Registration Examination before you can return your registration to active status. Continuing education requirements for each year your registration was inactive must be completed before returning to active status.

This form and your check must be received by TBAE before your expiration date or you will be required to pay your regular renewal fee plus any penalties that may accrue.
